

SAFE HOUSE

Domestic violence includes a spectrum of physical, emotional and sexual abuse and may be lethal.

It occurs in households every day, at all income levels, and from all segments of society.

Domestic violence terrorizes children. Witnessing violence against a parent is emotionally traumatic for a child, and children are likely to suffer additional consequences as a result of the trauma.

It is the leading cause of injury to women, more common than automobile accidents, muggings and rapes combined.

If abuse is occurring in your home, you are not alone. There are resources and you have options.

Help is available 24 hours a day. Call 702.564.3227
