

## Worksheet A - Primary Physical Custody Child Support Calculation Worksheet

You must fill out this worksheet and attach it to your motion if you are requesting a change in child support and a primary physical custody arrangement. Primary physical custody exists when one parent has physical custody of the child more than 60% (219 days) of the time calculated over a one year period.

1): What is the GMI/gross monthly income (amount before taxes) of the parent who does NOT have primary physical custody?

GMI = \$ \_\_\_\_\_ per month.

2): Use the Child Support Chart to determine the percentage of the non-primary parent's GMI that will be used in 3).

Percentage = \_\_\_\_\_ %.

One Child = 18% of gross monthly income; Two Children = 25% of gross monthly income  
Three Children = 29% of gross monthly income; Add 2% for each additional child

3): Multiply the non-primary parent's GMI by the percentages in 2).

GMI = \$ \_\_\_\_\_ x \_\_\_\_\_ % = \$ \_\_\_\_\_ per month.

Under Nevada law, this is the amount of child support that the non-primary parent should pay unless the amount is greater than the presumptive maximum in 4).

4): Apply the presumptive maximum if necessary. This amount changes every year on July 1.

*Make sure that you are using the most current chart.* The chart can be found at the following link. [www.willicklawgroup.com/child\\_support](http://www.willicklawgroup.com/child_support) Scroll down to the link section and choose the correct year.

5): If you ARE requesting an amount of child support that is lower or higher than the amount in 3 or 4, if applicable, your reason(s) for requesting a different amount must be based upon one of the following factors: *(check all that apply and complete the explanation portion at the bottom of the page)*
